DON'T JUST COVER YOUR BUSINESS, PROTECT IT

Save time, labor and money with custom containment and storage solutions from Reef Industries. Reef Industries patented Griffolyn® Custom Containment and Storage Covers are tough and durable to provide a variety of options to improve your company's efficiency. Whether you're looking to reduce shipping costs, maximize facility use, avoid fines from regulatory agencies or save time and money, the value and performance of Griffolyn® is unsurpassed in the industry.

Griffolyn® is an internally reinforced, cross-laminated polyethylene laminate with an outstanding service life. All Griffolyn® material is performance engineered to be highly resistant to tears and punctures with an exceptional ability to withstand extended exposure to weather. Manufactured using a UV stabilizing process, Griffolyn® can protect your investments year round. Special features of Griffolyn® include fire retardant for safety applications around critical materials, as well as anti-static, corrosion inhibitors and heat shrinkability are also available. Don't just cover your business, protect it with Griffolyn®.

Griffolyn® plastics can be customized to any size and shape, ensuring your exact requirements are met. Griff-Shrink® covers are available to fit 7FA and 7EA or other gas turbines with a 5-7 day turnaround time. However if you need immediate shipment, standard sizes are available. Additional tie down methods such as grommets d-rings, webbing straps, pipeloops and drawstring closures are also available for your specific custom needs.
