### BARRICADE TAPE

Restrict access and warn against hazardous areas with Banner Guard® barricade tapes from Reef Industries, Inc. Banner Guard® is a highly visible barricade tape designed to be a convenient and cost-effective means to temporarily control and secure identified areas on an immediate basis. Perfect for crime and fire scenes, construction sites, chemical and industrial plants and road work. Messages such as "POLICE LINE DO NOT CROSS," "CAUTION CONSTRUCTION AREA" and "ENTRY REQUIRES SPECIAL PERMISSION" are clear and concise and are available for immediate shipment.

**Banner Guard® barricade tape is available in grades.**

Banner Guard Economy: a light duty, short-term use product ideal for any budget

Banner Guard Standard: a medium duty barricade tape for applications that need a more durable product

Banner Guard Six Ply: ideal for long-term use where distance between supports is long and therefore a heavy duty product is required. Scissors are required to cut the product.

Banner Guard Super Strength II: a super heavy duty, non-stretching barricade tape for applications requiring long distances between support posts.

Each grade is made from reusable, non-adhesive pigmented polyethylene and is an environmentally friendly heavy-metal free product. Banner Guard® barricade tapes can be custom printed with your company name, logo, phone number, or with a customized message in any language. Custom printing available with minimum order, plus printing plate charges where applicable. Whether your goal is to alert, inform or restrict access, Banner Guard® has the barricade tape to fit your need.
