## **STORAGE AND SHIPPING COVERS**

Since 1957, Reef Industries, Inc. has been manufacturing Griffolyn® reinforced polyethylene laminates and composites to provide exceptional protection of valuable goods during shipping and storage. Our patented Griffolyn® Storage Covers are lightweight, flexible, cold-crack and moisture resistant and provide continuous protection all year round. Manufactured using a UV stabilizing process, Griffolyn® helps to protect your investments from sun degradation and long range storage during storage and shipping. Custom-fitted Griffolyn® pallet covers are also available in fire-retardant and anti-static grades allowing you to make the most of your warehouse space and to store pallets, drums, cable reels and various machines outdoors, freeing up valuable warehouse space. Griffolyn® covers reduce packaging, thus decreasing shipping costs of valuable goods. Reef Industries, Inc. offers custom manufacturing and fabrication tailored to meet your specifications. A wide range of colors, material grades, custom printing and additional features such as anti-static, corrosion inhibitors and heat shrinkability are also available.
